EmpathyMap

The empathy map helps understand the student’s perspective by identifying what they say, think, do, and feel while learning academic concepts. These insights guided the development of EduGenie – Google Gemini Powered Learning Assistant, an AI-powered educational platform designed to provide concept explanations, question answering, quiz generation, summarization, and personalized learning recommendations.

SAYS

- I need clear explanations for difficult concepts.
- I want instant answers to my academic questions.
- I need quizzes and summaries to prepare effectively

THINKS

- Can AI explain topics as clearly as a teacher?
- I want to improve my understanding before examinations.
- Personalized study recommendations would help me learn better.

DOES

me learn better.

PERSONA NAME

Student

(B.TechStudent/ Learner)

FEELS

- More confident while studying.
- Motivated to learn independently.
- Better prepared for examinations with personalized guidance.
