Problem-SolutionFitCanvas

This canvas explains how EduGenie – Google Gemini Powered Learning Assistant addresses the educational needs of students by identifying learning challenges, understanding their root causes, and providing an AI-powered learning platform that offers concept explanations, question answering, quiz generation, text summarization, and personalized learning recommendations.

1.Customer Segment(CS) • Students • Teachers • Educational Institutions • Online Learners ☐ • Competitive Exam Aspirants	6.CustomerLimitations(CL) • Limited personalized guidance. • Scattered learning resources. • Time constraints. • Dependence on multiple platforms. • Inconsistent internet connectivity.	5.Available Solutions(AS) • Online learning platforms • Educational websites • Learning Management Systems (LMS) • YouTube tutorials • Digital notes and ebooks
--	---	--

2.Problems/Pains(PR) • Difficulty understanding complex concepts. • Time-consuming search for reliable study materials. • Lack of personalized learning support. • Difficulty in preparing quizzes and concise notes.	9.ProblemRootCause(RC) Existing educational platforms provide fragmented learning resources and limited personalization. Students often need to switch between different websites and applications to obtain explanations, summaries, quizzes, and study guidance, making the learning process inefficient.	7.Behavior (BE) • Students search multiple websites for answers. • Watch educational videos. • Read notes from different sources. • Practice quizzes before examinations.
3.TriggerstoAct(TR) • Need for instant AI-powered academic assistance. • Better exam preparation. • Personalized learning guidance. • Effective self-learning. 4.Emotions(EM) Before: • Confusion • Stress • Lack of confidence • Difficulty in understanding subjects After: • Confidence • Better understanding • Motivation to learn	10.YourSolution(SL) EduGenie – Google Gemini Powered Learning Assistant is an AI-powered educational platform that integrates Google Gemini 1.5 Pro and LaMini-Flan-T5 to provide concept explanations, academic question answering, automatic quiz generation, text summarization, and personalized learning path recommendations through a single, userfriendly application. This enables students to learn efficiently, improve conceptual understanding, and enhance academic performance.	8.Channelsof Behavior(CH) Online: • EduGenie Web Application • Google AI Studio • Educational Websites • Learning Management Systems (LMS) Offline: • Classroom Learning • Self-Study • Printed Study Materials

☐ Improved academic performance
